THE HOME OF TAILORED COVERS

*“For almost 40 years
we have pioneered
the protective vehicle
cover industry”*

Specialised Covers is a family-run company and at the core of our business is a dedicated team of motorcycle, car and caravan enthusiasts.

For almost 40 years we have pioneered the protective vehicle cover industry and have a heritage our competitors can only envy.

Experience and skilled craftsmanship goes into all our covers and accessory products.

We use the very best fabrics and our tailored designs give our covers their unique fit, which is second to none. Specialised Covers provide Savile Row style tailoring for vehicles. We work around each curve and angle, with meticulous precision, to ensure a Specialised Cover that fits as well as a tailor-made suit.

All Specialised Covers are designed and manufactured in-house, in the UK, under ISO 9001 quality supervision. Whilst using the most up to date manufacturing techniques, our production facility in West Yorkshire houses some of the UK's most experienced tailors, designers, seamstresses and a state of the art digital cutting machine.

Our approach to the protective cover market is unique because we never settle for anything less than perfect - each and every product we produce is distinctive due to its quality, longevity, and attention-to-detail.

Over the years, we're proud to have built ongoing relationships with the automotive industry's most prestigious manufacturers, as well as supplying the biggest and most well-known names in the leisure and motorbike industry.

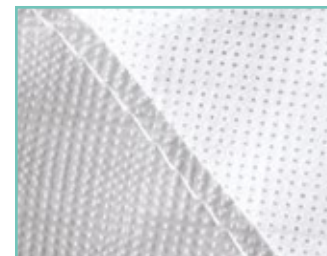

STORMSHIELD OUTDOOR COVER

To Protect & Preserve

stormshield

Specialised's Stormshield cover is our lightweight, outdoor storage cover. This is great for short-term storage and when you need to be able to pack down your cover and put it away. It is a lightweight material yet still waterproof and breathable offering your bike great protection. The covers are available in grey and come with their own storage bag. If it's short-term storage solution you're looking for, then this is the cover for you.

IN-FOCUS FEATURES

PERFORMANCE FABRIC

Stormshield covers are manufactured from our lightweight, waterproof and breathable material. Only available in grey with a soft white inner which is non-abrasive and guaranteed for 1 year.

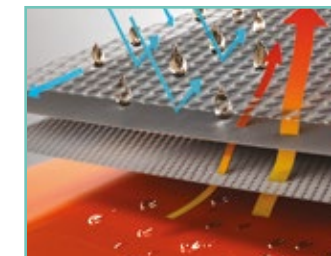

STRETCHY CORNERS

All our outdoor storage covers have elasticated corners and webbing straps that run the width of the motorbike. This keeps the cover secure on the motorbike and prevents it from moving even in the worst of the weather.

PAINTWORK PROTECTION

Our Stormshield cover is designed to protect your motorbike from the elements including bird droppings, acid rain and tree sap which are all corrosive and with long term exposure will damage your paint work.

BREATHABLE FABRIC

The Stormshield covers are waterproof and breathable - an important factor to look for when buying a cover. If your cover does not allow moisture to evaporate through, it becomes trapped against your paintwork which can be detrimental to your motorbike.

STORMSHIELD + OUTDOOR COVER

To Protect & Preserve

stormshield +

Ideal for long-term outdoor storage, this cover is 100% waterproof and breathable with a fleece inner lining. The excellent breathability of the Stormshield + fabric means the cover can be put on a wet motorbike and the remaining moisture will permeate through the cover. The 100% waterproof protection ensures that your bike is never exposed to the elements, even in harsh weather conditions.

IN-FOCUS FEATURES

FLEECE LINED MATERIAL

Our Stormshield + covers are the ultimate in outdoor protection. The covers have a fleecy inner lining and are waterproof and breathable, combined with fine tailoring which creates the perfect motorbike cover solution for long-term storage.

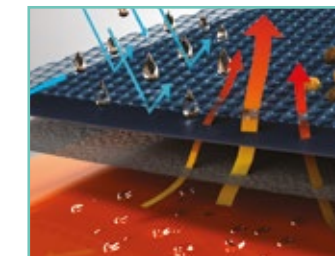

CHOOSE YOUR COLOUR

The Stormshield + covers are available in 4 colours. You can choose from navy, green, grey and black and customise all the panels when you add the colour pack. Single colour covers are also available with matching storage bag.

UV PROTECTION

Our covers have been impregnated with UV inhibitors creating a protective shelter for your motorbike. All of this helps to maintain the condition of your motorbike, inside and out eliminating costly and timely repairs which would detract from enjoying your motorbike.

BREATHABLE FABRIC

The Stormshield + covers are waterproof and breathable - an important factor to look for when buying a cover. If your cover does not allow moisture to evaporate through, it becomes trapped against the paintwork which can be detrimental to your motorbike.

PRESTIGE INDOOR COVER

To Protect & Preserve

prestige

Prestige is a stretchy microfibre, with a soft, fleecy inner, and is the same fabric we use to make indoor covers for Audi, worldwide. This fabric will repel dust and shield your motorbike from minor knocks, maintaining your motorbike's immaculate condition. Every day knocks and scratches are always a problem as you never know when an accident will happen. With a Prestige cover you are giving your bike a layer of protection to help prevent the extent of any damage. The best form of protection is prevention.

IN-FOCUS FEATURES

PROVEN MATERIAL

Our Prestige material is both soft and stretchy, creating maximum protection, whilst still looking great. This tailored fit is synonymous with a Specialised Cover and every one is created using the same methods as a Savile Row suit.

STRETCHY FIT

One of the main benefits of a Prestige motorbike cover is the great aesthetic it creates. Hugging every curve of the motorbike with tailored wing mirror pockets that fit like a glove, we also accentuate the lines of the motorbike with a contrast piping.

DUST PROTECTION

A tailored cover guards your pride and joy from dust and other airbornes, whilst maintaining the aesthetic lines of your motorbike. Our indoor motorbike covers are made from tightly woven fibres that repel dust so your motorbike stays clean.

SCRATCH PROTECTION

Every day knocks and scratches are always a problem as you never know when an accident will happen. With a Prestige cover you are giving your motorbike a layer of protection to help prevent the extent of any damage. Protection is the best prevention.

PRESTIGE + INDOOR COVER

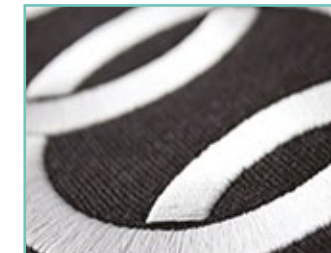

To Protect & Preserve

prestige +

Prestige + is our most customisable indoor cover and allows you to mix and match from 15 colours, so you can create a unique cover combination. This cover gives you complete indoor protection with a superior fit. Manufactured from luxurious cotton/mixed fibres with a soft cotton fleecy inner, this breathable fabric is tightly woven to repel dust and protect against minor knocks, keeping your motorbike in pristine condition while maintaining its value.

IN-FOCUS FEATURES

PROVEN MATERIAL

To offer the best protection and the closest fit possible without harming the bodywork, Prestige + is made up of two layers - a tightly woven, stretchy, luxury cotton fabric to shield from dust and dirt, then a thick fleecy, non-abrasive inner to protect the motorbike's paintwork.

CHOOSE YOUR COLOUR

Match your motorbike? Choose your teams' colours? Stand out from the rest. With 15 colours to choose from, you can customise all the covers panels. Including the top, side, wing mirrors and piping sections.

FULLY TAILORED

Using full 2m wide panels and darts means you are getting a real tailored fit. There are no add-ins or pin-ons using scraps of material to fill the gaps, creating an unsightly finish. You wouldn't expect a Savile Row suit to be made with patches.

CUSTOM LOGOS

The Prestige + motorbike cover allows you to add a variety of customisable logos from your own personal insignia, a team badge or the motorbike's marque. The options are endless and all artwork is digitised in-house by our own graphics team.
